

Toro 570Z Series Sprinklers

0-5.5m Radius

Featuring a low-pressure seal that flushes only upon retraction, 570Z models are ideal for small garden and turf areas. Seven distinct pop-up sprinkler bodies and a host of interchangeable fixed or variable arc nozzles provide unlimited design flexibility.

Key Features

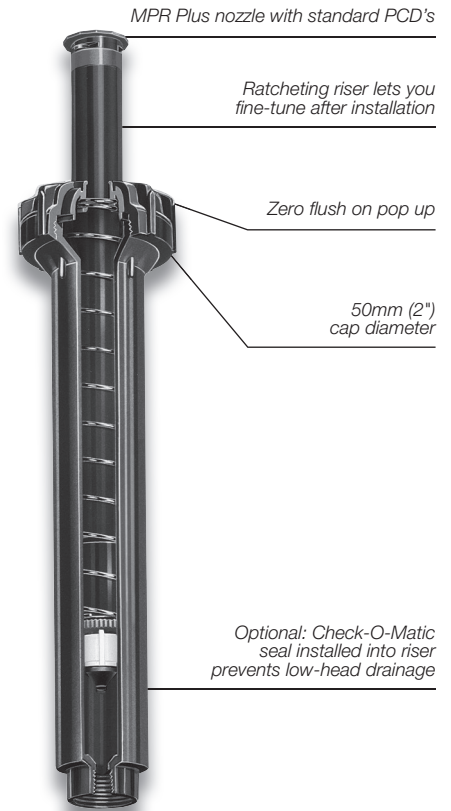

- Zero flush seal prevents flushing on pop-up, enabling more heads to be placed on same zone
- Low-pressure sealing at 100 kPa
- Retraction flushing clears debris for reliable pop-down
- Accepts all Toro spray nozzles – including 570 MPR Plus fixed, Toro Variable Arc, bubbler, low angle and new Precision series nozzles
- All bodies shipped with a flush plug in place for ease of flushing and riser pull up
- Ratcheting riser permits easy arc adjustment in the field

Additional Features

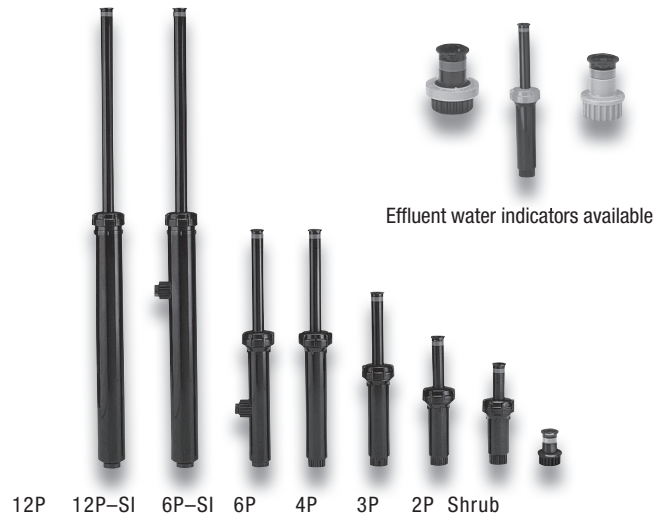

- Small, 50mm diameter black cap is less visible, reducing damage from exposure or vandals
- Accepts Maxijet® micro-spray nozzles for low-application-rates
- Check valve models (optional) with heavy-duty retraction spring prevent low-head drainage and keep laterals charged with water
- Side-inlet models available on both 150mm and 300mm sprinkler bodies for sandy soils or applications prone to high pressure surges and spikes
- Durable engineering plastic construction
- Stainless-steel retraction spring

Specifications

- Spacing: 0.6-5.5m
- Flow rate: 0.2-17 Lpm
- Recommended operating pressure: 140-350 kPa
- Maximum operating pressure: 520 kPa
- Minimum operating pressure for COM models: 170 kPa
- 15mm (1/2") female uni-thread
- Check valve maintains up to 3m in elevation change (The Check-O-Matic feature requires use of the bottom inlet.)
- Dimensions:
 - Body diameter:
 - 35mm on shrub, 2P, 3P, 4P, 6P and 6P-SI bodies
 - 41mm on 12P bodies
 - 44mm on 12P-SI bodies
 - Cap diameter: 50mm
 - Side inlet: 120mm from top of sprinkler to centre of side inlet
 - Body height:
 - 2P – 103mm
 - 3P – 122mm
 - 4P – 158mm
 - 6P – 211mm
 - 12P – 395mm
